Foreword

This publication, *Composite Materials: Testing and Design—Eleventh Volume*, contains papers presented at the 11th Symposium on Composite Materials: Testing and Design, held in Pittsburgh, PA on 4–5 May 1992. The symposium was sponsored by ASTM Committee D–30 on High Modulus Fibers and Their Composites. Eugene T. Camoneschi, Jr., Carderock Division, Naval Surface Warfare Center (formerly the David Taylor Research Center), presided as symposium chairman and is editor of the resulting publication.
