Peer Review Policy

Each paper published in this volume was evaluated by three peer reviewers. The authors addressed all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM Committee on Publications. The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of these peer reviewers. The ASTM Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM.
Foreword

The Twentieth National Symposium on Fracture Mechanics was held on 23–25 June 1987 at Lehigh University, Bethlehem, Pennsylvania. ASTM Committee E-24 on Fracture Testing was the sponsor of this symposium. Robert P. Wei, Lehigh University, and Richard P. Gangloff, University of Virginia, served as coeditors of this publication. Robert P. Wei also served as chairman of the symposium.
