Asphalt Concrete Mix Design: Development of More Rational Approaches

William Gartner, Jr., Editor
Foreword

The papers in this publication, *Asphalt Concrete Mix Design: Development of More Rational Approaches*, were presented at the symposium on Development of More Rational Approaches to Asphalt Concrete Mix Design Procedures held 9 December 1987 in Bal Harbour, Florida. The symposium was sponsored by ASTM Committee D-4 on Road and Paving. William Gartner, Jr., The Asphalt Institute, is editor of this publication.
Contents

Overview

The Evolution of Asphalt Concrete Mix Design—WILLIAM H. GOETZ 5

Asphalt-Aggregate Mixtures Analysis System: Philosophy of the Concept—
HAROLD L. VON QUINTUS, JIM SCHEROCMAN, AND CHUCK HUGHES 15
Discussion 36

A Comprehensive Asphalt Concrete Mixture Design System—C. L. MONISMITH,
F. N. FINN, AND B. A. VALLERGA 39

The Role of Asphalts in Rational Mix Design and Pavement Performance—
BYRON E. RUTH, MANG TIA, AND KWASI BADU-TWENEBOAH 72

Asphalt Mix Design and the Indirect Test: A New Horizon—GILBERT Y. BALADI
AND RONALD S. HARICHANDRAN 86

Toward Maximum Performance Mix Design for Each Situation—
WILLIAM O. YANDELL AND ROBERT B. SMITH 106

Asphalt Concrete Mix Design in the Caribbean—RAYMOND CHARLES 115
