Photocopy Rights

Authorization to photocopy items for internal or personal use, or the internal or personal use of
specific clients, is granted by the AMERICAN SOCIETY FOR TESTING AND MATERIALS for users
registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that
the base fee of $2.50 per copy, plus $0.50 per page is paid directly to CCC, 27 Congress St, Salem,
MA 01970, (508) 744-3350 For those organizations that have been granted a photocopy license by
CCC, a separate system of payment has been arranged The fee code for users of the Transactional
Reporting Service is 0-8031-1484-2/93 $2.50 + 50

Peer Review Policy

Each paper published in this volume was evaluated by three peer reviewers The authors addressed
all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM
Committee on Publications
The quality of the papers in this publication reflects not only the obvious efforts of the authors and the
technical editor(s), but also the work of these peer reviewers The ASTM Committee on Publications
acknowledges with appreciation their dedication and contribution to time and effort on behalf of ASTM

June 1993
Foreword

The papers in this publication, *Metallography Past, Present, and Future*, were presented at the symposium on Metallography '75 Years Later held 8–10 May 1991 in Atlantic City, New Jersey. The symposium was sponsored by ASTM Committee E4 on Metallography. George F. Vander Voort, Carpenter Technology Corporation, Francis J. Warmuth, Cameron Forge Company, Samuel M. Purdy, National Steel Company, and Albert Szirmae, U S Steel Corporation, served as symposium cochairmen and are coeditors of this publication.
Contents

Overview 1

The History of ASTM Committee E4 on Metallography—
GEORGE F VANDER VOORT 3

LIGHT MICROSCOPY

Some Incidental History of Metallography and ASTM Committee E4—
THEODORE G. ROCHOW 83

Research Under the Microscope—WILLIAM G. FRICKE, JR 88

METALLOGRAPHIC PREPARATION TECHNIQUES

Automotive Materials and Their Characterization: 1916 to 1991—
GERALD S COLE, LESLIE BARTOSIEWICZ, AND FLOYD E ALBERTS 109

New Diamond Grinding Disks for Specimen Surface Preparation—
ROBERT L. BENNER 139

Advancements in Ultrathin Section Techniques for the Characterization of Brittle Materials—NATALIO T SAENZ 155

The Early Metallographic Studies of Chih-Hung Chou on the Formation and Morphology of Widmanstatten Structure and Martensite—
MICHAEL R. NOTIS, ARNOLD R. MARDER, AND YE T. CHOU 167

X-RAY AND ELECTRON METALLOGRAPHY

Those Magnificent Men on Their Scanning Machines—KURT F. J HEINRICH 177

Seventy-Five Years of Activity in X-Ray Methods by ASTM Committee E4.06—
SAMUEL M. PURDY AND LEO ZWELL 184

Microstructural Studies of an Oxide-Dispersion-Stabilized Niobium Composite Using Transmission Electron Microscopy—ATUL S RAMANI AND PAUL R HOWELL 189
The Application of Transmission Electron Microscopy to the Study of a Low-Carbon Steel: HSLA-100—RAJAN VARUGHESE AND PAUL R HOWELL

Some Reflections on the Early Development of Electron Microscopy and Microanalysis—JAMES HILLIER

Quantitative Metallography

Quantitative Metallography in Test Method Standards and Product Specifications—DANIEL B FOWLER

Artificial Intelligence for Twin Identification—JOHN J. FRIEL AND EDDIE B PRESTRIDGE

The Use of Quantitative Image Analysis for the Characterization of Corrosion-Resistant Coatings—SCOTT T. BLUNI, KATHERINE M. GOGGINS, BRIAN J. SMITH, AND ARNOLD R MARDER

Examination of Some Grain Size Measurement Problems—GEORGE F. VANDER VOORT

Measurement and Interpretation of Fracture Surface Fractal Dimension—WILLIAM DRURY AND ARUN M GOKHALE

Applications I

In Search of Microstructure—JAMES A NELSON

The Microstructure of Laser-Welded Aluminum Bronzes—DAVID E BELL, TERRI A. MARSICO, KATHLEEN PETROLOMIS, PAUL E DENNEY, AND PAUL R HOWELL

Metallography of Mechanically Alloyed Aluminum—WILLIAM J. D SHAW

Microstructural Investigations of Rapidly Solidified Copper-Niobium (Cu-Nb) Alloy Powders Produced by Inert Gas Atomization—KEVIN L ZEIK, IVER E ANDERSON, DONALD A KOOS, AND PAUL R. HOWELL

Metallography Applied to the Structure of Electrorheological (ER) Fluids—MARK D. FISHER, ARNOLD F. SPRECHER, AND HANS CONRAD
APPLICATIONS II

Interpreting Solidification Phenomena and Microstructural Evolution in Metals Through the Use of Transparent Model Alloy Systems—
RICHARD N. GRUGEL AND ROHIT TRIVEDI 393

Some Failure Analysis Case Histories in Galvanized Steel Products—
EDWARD LARKIN AND MEHROOZ ZAMANZADEH 414

Characterization of Reaction Between Cast Titanium and Silica-Containing Investment Mold—HERBERT J. MUELLER 429
