NOTE

The Society is not responsible, as a body, for the statements and opinions advanced in this publication.
Foreword

The symposium on Fatigue in Mechanically Fastened Composite and Metallic Joints was held on 18–19 March 1985 in Charleston, South Carolina. The event was sponsored by ASTM Committee E-9 on Fatigue. John M. Potter, of the Air Force Wright Aeronautical Laboratories, presided as chairman of the symposium and also served as editor of this publication.

A Note of Appreciation to Reviewers

The quality of the papers that appear in this publication reflects not only the obvious efforts of the authors but also the unheralded, though essential, work of the reviewers. On behalf of ASTM we acknowledge with appreciation their dedication to high professional standards and their sacrifice of time and effort.
