Index

A

Agricultural carriers
  Attapulgite clays for, 173
  Corncobs for, 177
  Laboratory absorptivity tests for,
  169, 170, 179-181
  Low volatile material, grades of,
  171
  Montmorillonite clays for, 177
  Regular volatile material, grades
  of, 171
  Alkyl acid phosphates, 6
  Anti-foam performance
    Evaluation parameters for, 54
    Laboratory testing apparatus for,
    51
    Packaging/transfer testing for, 53
  Armstrong, T. F., 109-112
  ASTM Standard D 3601, 51

B

  Banks, W. A., 133-143
  Bode, L. E., 78-87
  Brenner, W. E., 23-36
  Brown, L. J., 23-36
  Butler, B. J., 78-87

C

  Compatibility agents, 13, 135
  Co-pesticide ratio, 25
  Corn crops
    Injury by herbicides to, 162
    Weed control in, 161-162

D

  Defoamers
    Evaluation of, 56
    Influence on flowables by, 55
  Diazinon 4E, 117-118
  Dose targeting of pesticides, 127-130
  Drip irrigation of cotton crops
    Above-ground method of, 99
    Equipment used for, 99-100
    Pesticides used in, 101-102
    Plant nutrients used in, 101
    Subsurface method of, 99
    Water-soil amendments used in,
    103-104
  Dry application of herbicides
    Dry flowables for, 158-166
    Pneumatic applicators for, 158

E

  Emulsifiable concentrates, 25
  Emulsion
    Oil phase of, 37, 39
    Separation of, 42
    Stability of, 38
    Top creaming of, 37, 43

F

  Flowables, 25, 55-57
  Foaming
    Testing apparatus for, 51
    Test procedures for, 51
    Volume calculation of, 53
  Foxtail control, 82-86
  Frank, Rudolph, 50-58
G
Gandrud, D. E., 158-166
Glyphosphate herbicide
   Efficacy in reducing tillage by, 106-108
   Field trials of, 106
Granular pesticides
   Applicator for dry application of, 158
   Carriers for, 135-142, 168-169
   Herbicides of, 158-166
   Insecticides of, 135-142
   Low volume uses of, 158-166

M
Machado, I. E., 23-36
Malathion formulations, 11

N
Nonionic surfactants
   Ethoxylated types of, 11
   Hydrophilic-lipophilic balance of, 41
   Phosphated types of, 8
   Ratios of, 42

O
Optimization of emulsion formulations, 38-40
Orthophosphoric acid, 7

P
Pesticide delivery improvement
   Evaluation of intermittent sprayer for, 124
   Multidisciplinary research team for, 123-124
Phosphorylating agents
   Phosphorus pentoxide, 5, 7
   Tetraphosphoric acid, 5, 6
Plant growth regulators
   Efficacy of, 110, 112
   Evaluation parameters of, 110
   Pneumatic applicator for dry flowable formulations, 159
Polyphosphoric acid, 6

R
Red imported fire ant, 135-142
Reichard, D. L., 61-66, 113-121

I
Insecticides applied ULV
   Bioassay studies of, 75
   Efficacy of, 73
   Field studies on cotton of, 71
   Residue analyses of, 70
   Standard-volume water sprays of, 70, 72
   Synthetic pyrethroids used in, 68, 72
   Vegetable oils used in, 67, 70, 72

K
Kaneko, T. M., editor, 1-2, 185-188
Krueger, H. R., 113-121

L
Lofgren, C. S., 133-143
Lohr, J. E., Jr., 37-49
Luttrell, R. G., 67-77
INDEX 191

S

Sawyer, E. W., 167-182
Schneider, R. P., 105-108
Seed treatment
  Biological evaluation of, 20
  Desirable properties of, 16
  Equipment for, 17
  Pesticides for, 15, 16
  Protocol for formulations of, 19
Shafer, J. G., 88-97
Sheridan, G. P., 5-14
Soybeans
  Crop injury to, 159-160
  Weed control in, 160-161
Spicer, L. D., editor, 1-2, 185-188
Spray deposition
  Biological effects of, 61
  Deposit formation by, 62
  Efficiencies in, 61-66
  Physicochemical properties of, 62
Spray distribution
  Nozzle effects on, 114-116
  Pressure effects on, 114-116
Spray droplets
  Electrostatic generator for, 62
  Impaction on cabbage leaves by, 64-65
  Velocities of, 64
  Rebound from cabbage leaves of, 65
Spruce budworm control
  Aminocarb insecticide for, 88
  Laboratory and aerial spraying for, 89-97
Surfactants
  Alkyl acid phosphate types of, 6
  Foaming properties of, 9, 10
  Hydrophile-lipophile balance of nonionic types of, 41
  Hydrotroping properties of, 8, 10
  Nonionic alkoxylate types of, 8
  Solubilities of, 8
  Suspension concentrates, 11

T

Tank mix compatibility
  Analysis of data for, 27-36
  Laboratory test procedures for, 24-26
  Mixing order effects on, 24, 29-32
  Tollefson, Scott, 98-104
  Toxic bait for red imported fire ants, 134, 140

U

Ultra-low-volume application of pesticides
  Foxtail control by, 82-85
  Velvetleaf and pigweed control by, 84-86

V

Velocities of droplets, 64
Viscosities, 38, 79, 80, 92

W

Water dispersible granules
  Agglomerators for, 145-152
  Dryers for, 152-153
  Problems in production of, 145
  System design for, 153-157
  Wax, L. M., 78-87
  Williams, D. F., 133-143

X

Xylene, 37, 118-119
