NOTE

The Society is not responsible, as a body, for the statements and opinions advanced in this publication.
Foreword

The symposium on Fractography and Materials Science was held on 27–28 Nov. 1979 in Williamsburg, Va. The American Society for Testing and Materials, through its Committee E-24 on Fracture Testing and Subcommittee E24.02 on Fractography and Associated Microstructures, sponsored the event. The symposium chairmen were L. N. Gilbertson, Zimmer, U.S.A., and R. D. Zipp, International Harvester, both of whom also served as editors of this publication.

A Note of Appreciation to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.
