Each paper published in this volume was evaluated by three peer reviewers. The authors addressed all of the reviewers’ comments to the satisfaction of both the technical editor(s) and the ASTM Committee on Publications.

The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of these peer reviewers. The ASTM Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM.
Foreword

This publication, *Aquatic Toxicology and Hazard Assessment: 10th Volume*, contains papers presented at the Tenth Symposium on Aquatic Toxicology and Hazard Assessment, which was held in New Orleans, 4–6 May 1986. The symposium was sponsored by ASTM Committee E-47 on Biological Effects and Environmental Fate. William J. Adams, Monsanto Co., presided as symposium chairman and is a coeditor of this publication. Gary A. Chapman, Environmental Protection Agency, and Wayne G. Landis, USA Aberdeen Proving Grounds, also served as symposium cochairmen and were coeditors of this publication.
