Subject Index

A

Acoustic pressure method, 7
Acousto-ultrasonics (See also Ultrasonics), 95, 105
Adaptive systems, 165
Adhesive strength, 95
metal film, 67
Air conditioners, rotary compressors, 287
Airframe components, 146
Alloy PE-16, 218
Aluminum, 77, 273
Aluminum-lithium alloys, 213
Amplitude distribution analysis, 365
Arrival time data, synthetic, 86
Artificial flaw, 242
Austenitic alloys, 218

B

Bending, three-point, 395
Boron, 77
Brazilian tests, 381
Bronze particles, impact test, 273

C

Calibration source, 77
Carbon fibers, 395, 416
Cavitation, 305
Ceramics
flaw size and acoustic emission, 242
microfracture, 47
Composites, 95, 105, 424
carbon fiber reinforced laminates, 416
fiber, 395
fiber-reinforced plastics, 123
graphite/epoxy, 404
microfracture, 47
tensile tests, 123
Compressors, rotary, 287
Corrosion, acoustic emission test for, 185
Cracks, 347
advanced, 146
detection, 185, 199, 261
growth, 146, 261
kinematics, 347
microcrack, 47
model, elliptical, 365
presence, 146
surface friction, 199
Cycling, thermal, 424
Cylinders, compressed gas, 185

D

Damage detection, 424
Data acquisition system, 146
Decohesion, 252
Deconvolution, 47, 67, 273
Debonding, 252
Deformation
compressive, 252
inelastic, 365
tensile, 77, 213, 218
Delta learning rule, 165
Diagnostics, machine condition, 287
Dilatancy point, 365, 381
Drying characteristics, pine veneer, 435
Dust impact process, 273

E

Earthquakes, 347
preparation zone, 358
Elastic impact, 273
Elasticity, 105
theory, 77
Electromagnetic-acoustic transducer, 35
Electron beam welding, 35
End-notched flexure, 395
Energy discriminating acoustic emission method, 416
Erosion, 273
cavitation, 305
Event increment rate, 365
Expert systems, 156, 316

## F

- Failure mechanisms, graphite/epoxy coupons, 404
- Fatigue
  - crack growth, 261
  - cyclic, tests, 199
  - damage modes, 416
- Fiber-reinforced plastics, 123
- Film adhesive strength, 67
- Flaw size, 242
- Flight, crack detection during, 146
- Fracture, 47, 146, 218, 328, 395
  - behavior, 123
  - hydro-, 347
  - inclusion, 77, 252
  - intergranular, 261
  - matrix splitting, 404
  - strength, effect on flaw size, 242
- Friction emission, 404

## G

- Gas cylinders, compressed, 185
- Gear, spur, 261
- Geotechnics, 347, 365
- Glass particles, impact test, 273
- Grain boundary slippage, 358
- Graphite, 252
- Graphite/epoxy composites, 404
- Green's functions, 67, 273
  - dynamic, 47
  - simplified, 347

## H

- Hatano method, 7
- Heat transfer, 435
- Hydrogen charging, 213
- Hydrogen embrittlement, 213
- Hydrostatic test, 185
- Hydrotest, 199
- Hydroturbines, 305

## I

- Imaging, ultrasonic, 86, 381
- Impact damage, 424
- Impact, elastic, 273
- Impact, particle, 273
- Impact, plastic, 273
- Inclusion fracture, 77, 252
- Industrial environment, sensing, 25
- In-flight monitoring, 146
- Inspection, pressure vessel, 185, 199
- Integrity evaluation, 156
- Intergranular fracture, 261
- Inverse problems, 47, 165
- Iron, nodular cast, 252

## J

- Joule heating, 67

## L

- Lamb waves, 105
- Laminates, carbon reinforced composites, 416
- Lead, acoustic emission signals, 7
- Line source, 67
- Lithium, aluminum-, alloys, 213
- Loading conditions, rock fracture, 365
- Loading, thermo-mechanical, 424
- Localization, 199
- Low strain, 358

## M

- Machine condition diagnosis, 287
- Machining, 328
- Maintenance, machine, 287
- Mapping, system, 165
- Mass production products, 287
- Matrix cracking, 395
- Matrix splitting, 404
- Mechanical properties, change assessment, 95
- Metals, 218, 261
  - coatings, 67
  - films, 67
  - microfracture, 47
- Microcracks, 47
- Microfracture, 47, 365, 381
- Micromechanics, 47
- Microseismics, 347, 358
- Milling, 316, 328
- Moisture content, 435
- Moment tensor analysis, 347
Monitoring
plant, 156, 287
process, 35, 165
tool, 316

N
Neural networks, 165, 316, 328
Neural signal processing, 165
Nimonic alloy, 218
Nodular cast iron, 252
Nondestructive evaluation, 242
quantitative, 47

O
Orowan looping, 218

P
Particle
impact, 273
shearing, 218
second phase, 252
Pencil lead fracture method, 7
Pine veneer, 435
Plant operability
efficient, 287
monitoring, 156
Plastic impact, 273
Plastics, fiber reinforced, 123
Point source, 67
Polyetheretherketone, 395
Pressure vessels, 185, 199
Process control, 35
Process monitoring, 35, 165

R
Rock, 347, 358, 365, 381
Root mean square, 305
Rotating machinery, 287

S
Second phase particles, 252
Sensitivity, sensor, 7

Sensors, 328
electron beam welding, for, 35
housing, 25
integrated, 25
mounting condition, 7
problems with, 7
sensitivity, 7
stress wave, 25
transducers, 35, 47, 305
Shear motion, 381
Signal analysis, 199, 416
development, 95
Signal energy, 77
Signal processing, 123, 328
Signals, emission, 7
fracture, 146, 242
Silicon nitride, 242
Source characterization, 165
acoustic emission, 47
Source inversion, 347
Source location, 86, 347, 381
Source mechanism, 381
Splitting, matrix, 404
Splitting, veneer, 435
Spur gear, 261
Steel
carburized, 261
stainless, 218
Strain ageing, 218
Strain levels, low, 358
Stress concentration, 365
Stress induced changes, 86, 381
Stress, residual, 199
Stress-strain curve, 365
Stress waves, 95
factor, 95
sensing, 25
Structural integrity function, 156

T
Tectonic strain, 358
Tensile deformation, 77, 213, 218
Tensile tests, 123, 395
Tension fatigue, 416
Tensor analysis, moment, 347
Thermal cycling, 424
Thermal shock tests, 199
Thermo-acoustic emission, 424
Thermoelastic generation, 67
Thermoelastic source, 67
Thermoplastic, 395
Thick film hybrid, 25
Thin-film testing, 67
Through-thickness-transverse-resonance (TTTR), 105
Time data, synthetic arrival, 86
Tomography
   difference, 381
   passive, 86
Tools, cutting
   breakage, 316
   wear, 316, 328
Transducers, 47, 305
   electromagnetic-acoustic, 35
Transport vessels, compressed
gas, 185
Turbines, hydro-, 305
Turning, 316, 328
U
Ultrasonics, 213
   acoustic, 95, 105
   imaging, 86, 381
   signals, 67

V
Velocity structure, 86
Veneer, southern pine, 435

W
Water, effect on acoustic
   emission, 213
Wave envelope processing, 123
Waveform parameters, 123
Wave propagation, 105
Waves, stress, 95
   sensing, 25
Wear, cutting tool, 316, 328
Welding, electron beam, 35
