AMERICAN SOCIETY FOR TESTING MATERIALS
FOREWORD

The papers and discussions in this Symposium on Conditioning and Weathering were presented at the Ninth Session of the Fifty-fifth Annual Meeting of the American Society for Testing Materials held in New York, N.Y., June 24, 1952. This Symposium was sponsored by Subcommittee 14 of Committee E-1 on Methods of Testing. Mr. A. C. Webber, E. I. du Pont de Nemours and Company presided over the Session while Mr. Robert Burns, Bell Telephone Laboratories, Inc., Murray Hill, N. J. acted as Symposium chairman and contributed much toward the success of the Symposium.
NOTE.—The Society is not responsible, as a body, for the statements and opinions advanced in this publication.
CONTENTS

Introduction—Robert Burns ................................................................. 1
Fundamentals of Atmospheric Elements—B. C. Haynes ......................... 3
Air Conditioning in the Manufacture and Testing of Textiles—R. H. Brown 25
Conditioning and Weathering of Paper—William R. Willets .................. 35
  Discussion ................................................................................. 41
Conditioning and Weathering of Adhesives and Plastics—F. W. Reinhart ... 42
  Discussion ................................................................................. 42
Weathering of Some Organic Coatings—E. J. Dunn, Jr. .......................... 53
Weathering Tests on Metallic Coatings—William Blum ......................... 64
Laboratory Air Conditioning—A. E. Stacey, Jr. ..................................... 68
  Discussion ................................................................................. 74
Development of a Moisture Resistance Test—C. P. Lascaro .................... 75
Outdoor Exposure Testing on Racks and Test Fences—K. G. Compton ...... 87
Accelerated Weathering Devices—R. H. Sawyer .................................... 91
THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations cooperating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
