SYMPOSIUM ON INSULATING OILS

Fourth Series

Presented at a
Meeting of Committee D-9 on
Electrical Insulating Materials
Niagara Falls, Ontario, November, 1951

Special Technical Publication No. 135

Published by the
AMERICAN SOCIETY FOR TESTING MATERIALS
FOREWORD

This Symposium, the fourth of a series of Symposia on Insulating Oils, sponsored by Subcommittee IV on Liquid Insulation of ASTM Committee D-9 on Electrical Insulating Materials, was presented at a Meeting of Committee D-9 which was held in Niagara Falls, Ontario, in November, 1951.

The three previous symposia were published in ASTM BULLETINS No. 146, May, 1947, pages 90 to 100, No. 149, December, 1947, pages 58 to 94, and Special Technical Publication No. 95.
NOTE.—The Society is not responsible, as a body, for the statements and opinions advanced in this publication.
CONTENTS

Introduction—L. B. Schofield ................................................................. 1

Evaluation of Mineral Transformer Oil During Service. Part II: Correlation of Oil
Characteristics with Continued Transformer Operation—F. M. Clark ....... 3

Evaluation of Mineral Transformer Oil During Service. Part III: An Examination
of Selected Transformers—R. G. Call, F. M. Clark, and T. A. McConnell ... 26

General Discussion ................................................................. 32
This publication is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations cooperating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
