Foreword — Jay C. Harris ................................................................. 1

Bibliographical Abstracts:

Additional References for 1907 – 1951 .............................................. 2

New References for 1952 – 1954 ........................................................ 11

Subject Index ..................................................................................... 29

Author Index ..................................................................................... 35

Specification Index ............................................................................. 38

Patent Index ..................................................................................... 39
THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the ASTM technical committees, or compilations of data developed in special Society groups with many organizations cooperating. A list of ASTM publications and information on the work of the Society will be furnished on request.
